

Meanwhile and AGILOX signed a strategic partnership

This new partnership marks a key milestone in the transformation of Meanwhile's portfolio, strengthening its position as a French leader in autonomous mobile robotics.

Lyon, Monday, September 9, 2024 – Meanwhile and AGILOX have officially announced their partnership through their respective communication channels.

Since its founding in 2017, Meanwhile has focused its activity on light load transportation, establishing a solid reputation among major industrial and healthcare players.

This new partnership with **AGILOX**, a provider of autonomous mobile robots, demonstrates Meanwhile's commitment to diversifying its offering to meet the emerging logistical challenges of organizations.

"The AGILOX AMR portfolio completes our existing range by allowing us to transport loads of up to 1500 kg," explains Fabien Benoteau, Technical Director of Meanwhile. "We identified their AMR technology as one of the best on the market, enabling us to continue delivering flexible, reliable, and high-performance solutions to our clients."

For its part, the Austrian company AGILOX still expanding its activity in France, following the opening of a sales office in early 2024, with the formalization of this partnership with Meanwhile. Lukas Göbel-Gross, Country Manager France at AGILOX, adds: *" Meanwhile is one of the best known integrators in France and their technical expertise and customer focus are a true asset for AGILOX' ambitious growth plans in "la grande nation". Our customers request end-to-end service and support in French and with Meanwhile on our side, we want to underline the importance that this market has for us."*

Confident in the complementarity of their respective activities, Meanwhile and AGILOX are preparing to seize new opportunities in the French market.

About AGILOX Services GmbH - AGILOX Services GmbH is a technology leader in Autonomous Mobile Robots for material handling processes in warehouse and production logistics. With over 1,600 AMRs in the field and a global customer base that includes Siemens, BMW, Bosch, and Daimler, AGILOX is one of the leading providers for small and large fleets of driverless transport systems.

Headquartered in Neukirchen bei Lambach, Austria, AGILOX Services GmbH has offices in Europe, the USA, and China and employs over 250 people worldwide.

About Meanwhile - A specialist in autonomous mobile robotics, Meanwhile designs turnkey solutions for goods transport in the manufacturing industry and healthcare facilities. Built around a human-centered vision, the company offers "For Human" solutions that allow users to focus on high-value-added tasks.
